### 1. Qualitative Information on Consolidated Financial Results for the First Quarter Ended June 30, 2022

#### (1) Explanation of Operating Results

The Group's raison d'etre is "with entertainment" and our goal is to continue to create services that exceed people's expectations. We also strive to create unprecedented value and deliver experiences that captivate users. In the medium term, we aim to become a comprehensive entertainment company that provides a variety of digital entertainment content globally, centered on our IP, and to achieve sustainable growth and increase our corporate value.

In the mainstay game business, our main business is the development and operation of games, and we develop and operate third-party IP games, game platforms, and original games. In the media business, we are engaged in business development with the aim of creating the next generation of core businesses. We have launched new services on a trial basis, utilizing our knowledge of Internet services, and are conducting a series of trials for commercialization.

In the first quarter of the current consolidated cumulative period, net sales were 2,927,195 thousand yen (up 10.0% year-on-year), operating income was 817,189 thousand yen (up 62.1% year-on-year), ordinary income was 810,539 thousand yen (up 64.6% year-on-year), and net income attributable to shareholders of the parent company amounted to 521,831 thousand yen (up 73.5% from the same period of the previous year), reaching a record high.

The results for each segment for the first quarter of the consolidated fiscal year under review are as follows.

#### Game Business

In the game business, one of our mainstay IP game titles, which celebrated its 8th anniversary, performed well globally and contributed to earnings.

Net sales increased year-on-year thanks to strong global sales of our mainstay IP titles, the release of new titles in the last fiscal year, and strong performances of other titles in operation even in the face of tough competition from competing titles.

Profits increased from the same period of the previous fiscal year due to the impact of increased sales of mainstay titles as well as the closure of some unprofitable titles.

As a result, segment sales amounted to 2,852,416 thousand yen (up 8.0% year-on-year) and segment income amounted to 892,398 thousand yen (up 52.1% year-on-year). This segment is our core business, and we will continue to strive to maintain stable earnings from titles in operation and aim to increase sales and profits through the success of several new titles under development.

#### Media Business

In the media business, "Rooot," a Twitter-based fan community promotion service, steadily expanded its business scale and contributed to earnings. In addition, in order to focus on the development, acquisition, and nurturing of IP and diversification of monetization channels, we are focusing on new businesses in the entertainment domain other than games, namely publishing and video business. We are also focusing on new business development in the Web3 domain.

Net sales increased year-on-year as "Rooot" steadily expanded its services.

Regarding profit, the company continues to incur expenses in advance due to aggressive investment in new business areas. However, it sees as a great opportunity to expand its business performance, and the amount of loss decreased from the same period of the previous year due to the effect of increased revenue.

As a result, segment sales amounted to 74,778 thousand yen (up 252.7% year-on-year) and segment loss amounted to 75,209 thousand yen (segment loss of 82,698 thousand yen in the same period last year). In this segment, the Company will continue to promote aggressive R&D investment with the aim of achieving medium- to long-term business growth.

Looking ahead, we will work to further improve profitability in our mainstay game business and aim to grow sales through the release of new titles. In addition, we will focus on business development in entertainment areas other than games to grow into a comprehensive entertainment company centered on IP. Furthermore, we will promote our growth strategy by integrating our existing businesses with the Web3 domains.
